By Anders Dernback

Internet Archive is a non-profit library of millions of free texts, movies, software, music, websites, and more.

On October 22, 2025, the Internet Archive celebrated an extraordinary milestone: 1 trillion web pages preserved and available for access via the Wayback Machine.

Since 1996, the Internet Archive has worked with libraries and partners around the world to build a shared digital library of humanity's online history: capturing websites large and small—from breaking news to forgotten personal pages so they remain accessible for future generations.

The 1 trillion archived webpages are more than just numbers they represent real impact on people's lives, research, and memory. From immigration cases to personal histories, academic research to investigative journalism, the Wayback Machine has become an essential public resource that preserves the web for all.

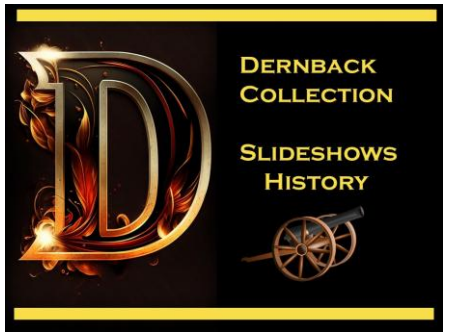
Internet sites and other cultural artifacts in digital form. Like a paper library, we provide free access to researchers, historians, scholars, people with print disabilities, and the general public. Our mission is to provide Universal Access to All Knowledge.

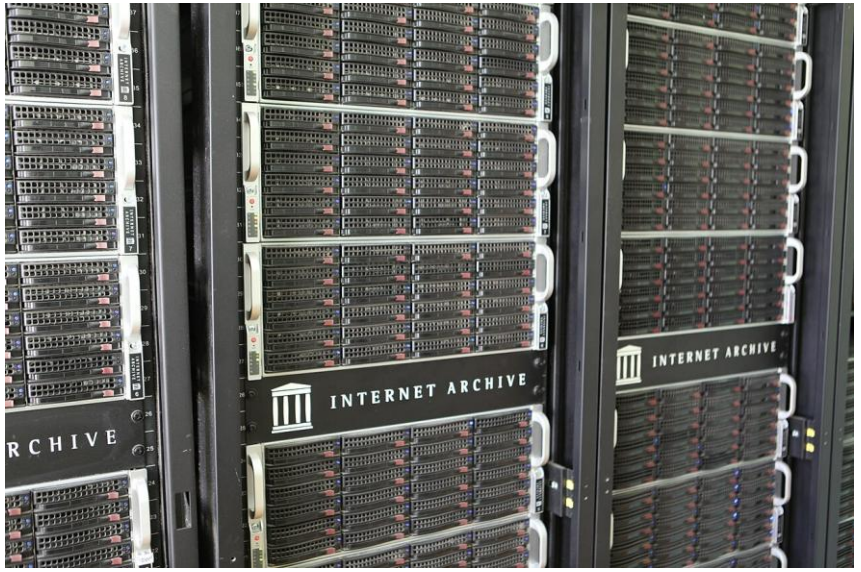
Anyone with a free account can upload media to the Internet Archive. We work with thousands of partners globally to save copies of their work into special collections.

INTERNET ARCHIVE

History

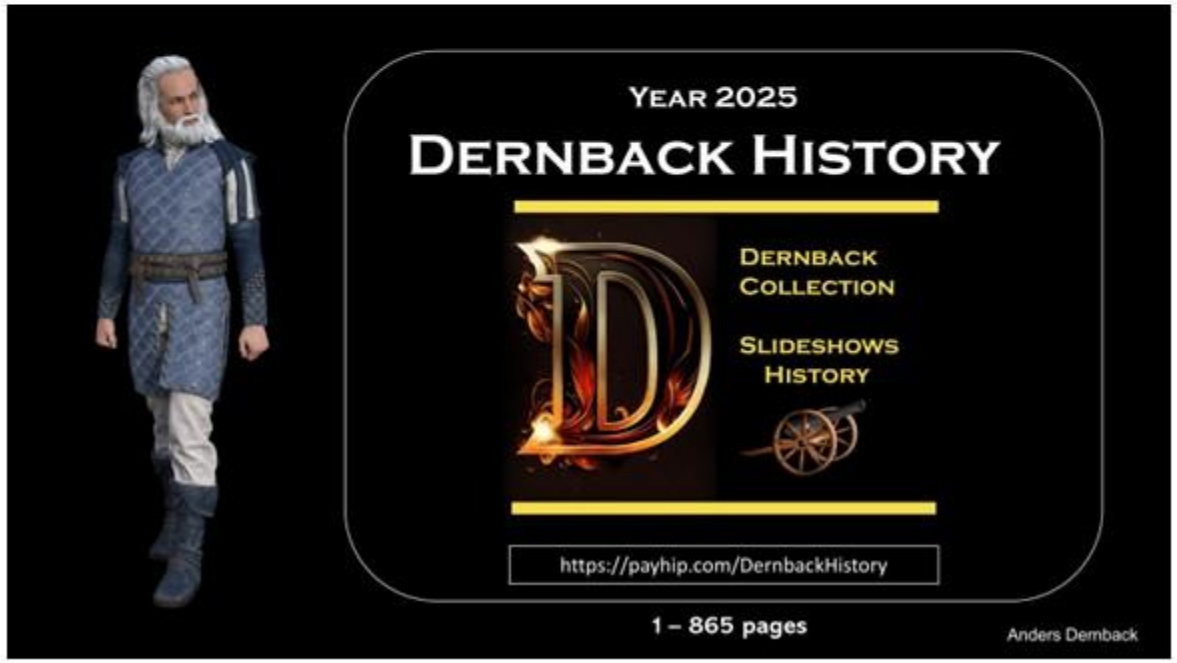
Headquarters in Building 116 of the Presidio of San Francisco in 2008
Brewster Kahle founded the Archive in May 1996, around the same time that he began the for-profit web crawling company Alexa Internet. The earliest known archived page on the site, the download page for Internet Explorer, was saved on May 10, 1996, at 14:42 UTC (7:42 am PDT). By October of that year, the Internet Archive had begun to archive and preserve the World Wide Web in large amounts. The archived content became more easily available to the general public in 2001, through the Wayback Machine.





AI-översikt

Anders Dernback's collection of slideshows is a vast, self-published archive of educational presentations on diverse historical topics, created for independent learning, covering everything from world wars, leaders like Napoleon, American history, old postcards, to cultural subjects, accessible online for free, aiming to make history engaging without a teacher.



Key Aspects of His Collection:

Breadth of Topics: Covers vast areas like WWII, US History (Battle of Fort Sumter, Philippine-American War), historical figures (Napoleon, Churchill), old photos, specific events (Great Fire of Meireki), and even cultural oddities like clowns.

Self-Contained Learning: Designed to be studied independently, functioning like a digital textbook or interactive learning resource.

Extensive & Popular: He's created thousands of these, attracting millions of readers globally across various platforms.

Platform Agnostic: Hosted on various sites like SlideShare and Payhip, often shared freely.

Passion Project: Driven by a desire to provide accessible, well-designed historical content, filling a perceived gap in readily available educational resources.

In essence, it's a massive, user-generated educational library of visual history lessons.

My name is Anders Dernback. I have created several thousand slideshows over the years. These do not require a teacher, but can be studied as if it were a picture book with text. Most often the subject is history. I have chosen to let more people benefit from this and read them or have students read them. They can be used for teaching purposes.

Anders Dernback är en privatperson från Malmö som har skapat ett av världens största arkiv av bildspel fokuserade på svensk och global historia.

Internet Archive: Här finns omfattande samlingar att bläddra i och ladda ned gratis, bland annat Anders Dernback Bildspel Historia och samlingen A Till Ö Anders Dernback Bildspel.

SlideShare: En stor mängd bildspel i PDF-format, exempelvis Katalogen 475 bildspel om svensk historia.

Payhip: Under namnet Dernback History finns tusentals bildspel tillgängliga för studier.

Webnode-hemsidor: Han driver flera egna temasidor, till exempel 5 Sekel Svensk Historia och 3 sekel i Malmö.

Facebook: Han är aktiv i grupper som Lärare med bildspel där materialet delas förpedagogiskt bruk.

Innehåll och syfte
Bildspelen täcker allt från medeltid till modern tid, ofta med fokus på Malmö, Stockholm och svenska kungar (som Erik av Pommern). Syftet är att göra historia mer lättillgängligt för allmänheten och skolor genom att kombinera text med ett stort urval av bilder, vilket gör dem lämpliga för självstudier.

"Dernback Collection" syftar på en omfattande samling av historiska bildspel skapade av Anders Dernback från Limhamn. Samlingen innehåller tusentals bildspel, varav majoriteten är gratis, och fokuserar främst på ämnen som historia, arkeologi och socialhistoria.

Om "Dernback Collection”

Innehåll: Samlingen består huvudsakligen av bildspel i PDF-format, ofta med bilder och text, som kan läsas online eller laddas ner.

Ämnen: Bildspelen täcker en mängd olika historiska ämnen, inklusive svensk historia (från medeltiden till specifika städers historia som Malmö och Göteborg), världshistoria, krig och fred, samt politiska ämnen.

Syfte: Enligt Anders Dernback själv är syftet att göra historia mer engagerande, särskilt för en yngre publik som föredrar visuellt material framför enbart text. Bildspelen är avsedda att kunna användas i undervisningssyfte.

Tillgänglighet: Många av bildspelen är gratis och har varit tillgängliga online sedan 2012, med över en miljon visningar från användare globalt. De finns tillgängliga på plattformar som Payhip, Internet Archive och Slideshare. Vissa titlar, som "Diktatorn", finns på både svenska och engelska.
Samlingen är inte en fysisk utställning av konst eller möbler, utan en digital resurs för historieintresserade.

Anders Dernback har en omfattande samling bildspel som nästan uteslutande fokuserar på historia. Samlingen beskrivs som en av de största skapade av en enskild privatperson och omfattar flera tusen verk.

Omfattning: Under 2025 har samlingen rapporterats innehålla mellan ca 5 000 bildspel.

Innehåll: Omkring 95 % av materialet handlar om historia, inklusive svensk historia, världshistoria och lokalhistoria om Malmö.

Format: Bildspelen är skapade i PowerPoint men distribueras ofta som PDF- eller JPEG-filer för att fungera som digitala "bilderböcker" med text.
Språk: Materialet finns tillgängligt på både svenska och engelska.

Var man hittar bildspelen

Samlingen finns tillgänglig via flera olika digitala plattformar:

Dernback History på Payhip: En primär handelsplats där material kan laddas ner, ofta kostnadsfritt eller till ett lågt pris.

Internet Archive: Här finns stora delar av produktionen arkiverad för allmänheten.
SlideShare: Används för att visa och sprida bildspelen digitalt.

Facebook: Han administrerar grupper som "Svensk Historia i Bildspel" och delar material i lokala historiska grupper.
